

3 Weeks to Move Out

- Create meal plans and shopping lists which ensure you cut down on as much food wastage as possible. Don't forget everything that's been hidden in your freezer! Check out **#LoveFoodHateWaste** leftover recipes at lovefoodhatewaste.com
- Check the weather to find a sunny day and clear your garden of any rubbish, weeds, overgrown plants etc. The garden is often your responsibility and will impact on your deposit!
- Tackle any unruly stains on carpets, or paint over large marks on the walls.
- There are British Heart Foundation clothing bins all around campus for your old clothes – check out the map online at warwicksu.com/movingout/#BHFbins
- Divide up the final house cleaning rota, particularly if your flatmates are leaving before you.
- Start to collect recycled cardboard boxes from nearby supermarkets or shops to help with packing.
